

TOWN AND COUNTY AFFAIRS.

B. & O. R. R. TIME TABLE.—On and after Monday June 10th, 1878. Trains will arrive and leave Woodstock as follows:

MOVING WEST.	
Through Freight Arrives A. M.	7.51
Leaves " "	7.51
Way Freight, Arrives P. M.	2.15
Leaves " "	2.15
Passenger Train Arrives " "	1.41
Leaves " "	2.65

MOVING EAST.	
Way Freight Arrives A. M.	11.29
Leaves " "	11.29
Passenger Train Arrives P. M.	2.30
Leaves " "	2.30
Through Freight Arrives P. M.	7.29
Leaves " "	7.29

Through freight runs Mondays, Wednesdays and Saturdays only. All freight trains have passenger cars attached.

MOLASSES.—Mr. M. V. French, of this place made 120 gallons of molasses on our acre of ground.

In reply to "citizen," in last week's issue, we are authorized to say that the money realized by the concert in this place \$43.57, was sent to the Relief Committee at Grand Junction, Tenn.

PROLIFIC.—Mr. Wm. Bennett of this place, brought us a head of cabbage on which were about 20 small well formed heads. Had this specimen been married in the garden of some recently married couple, it would have produced consternation in the family.

MILLINERY GOODS.—Miss Buttle Few has just received a splendid assortment of Millinery Goods from Philadelphia. She invites the public to call and examine them. Her store is at the residence of her father, on Main Street. Advertisement will appear next week.

MILLINERY GOODS.—Miss Jane Myers is now receiving her Fall and Winter stock of Millinery Goods. They have been selected personally with great care and will be sold at low prices. See advertisement in another column.

Absolutely free from Morphine and other dangerous agents Dr. Bull's Baby Syrup is valued most highly as a remedy for the disorders of babyhood. Price only 25 cents a bottle.

The best and cheapest in the world. Dr. Bull's Cough Syrup cost you only 25 cents, and if it does not cure your cough you can get your money back.

The annual meeting of the Overseers of Poor for Shenandoah County, will be held at Beckford Parish on Friday 1st day of November next, which the Overseers are requested to attend with reports ready for settlement.

Virginia Lodge, No. 1, O. O. F. of Harper's Ferry, has, within the last four years and three months, disbursed for the relief of sick and afflicted brethren, the large sum of \$3,997.78. Few lodges of beneficiary orders of the same strength, we imagine, can give a better showing.

Multitudes of People require an Alternative to restore the health action of their system and correct the derangements that creep into it. Ayer's Sarsaparilla tones and vitalizes the blood, and restores the vigor of health.

THE BEST YIELD.—Gen. John G. Meem's yield of wheat per acre was larger than that of any farmer of the county. When our farmers can raise an average of 30 bushels per acre, they certainly will rank among the best wheat farmers of the county.

On seven acres, corn stubble, Gen. Meem averaged 42 bushel per acre. The variety was Key's Prolific. On 70 acres, he averaged 35 bushels. Fultz wheat.

On 100 acres, including the seventy mentioned above, he averaged 31 1/4 bushels per acre.

GREENBACKERS.—The excitement about the question of more greenbacks still runs high. A perceptible decrease in this section has caused great apprehension upon the part of many of our people. This excitement and interest was not decreased by the withdrawal of a large amount from circulation on last Monday. This sudden contraction was caused by Sam Clower, who withdrew all that he could lay his hands on and has taken them to Baltimore, where he is now buying a large assortment of Fall and Winter goods which will be sold at bottom prices.

THE CARPET BAGGER'S EXIT.—On last Monday, a tall, lank, cadaverous individual was seen hurriedly passing on Main Street, his steps double the regular military step, and his space a fraction less than that of 240000. His hasty departure suggested the carpet bagger's exit after the election of '69. Looking out for the latest news we followed the wee-begone looking stranger to the depot and as he turned around we recognized the familiar features of our old friend S. A. Danner, who was just about starting to purchase a splendid stock of Dry Goods for this market. Next week he will have a full exhibition at the Crystal Palace. Admittance Free.

The following letters will show the disposition of funds collected for the yellow fever sufferers.
Woodstock, Va. Sep. 28th, '78.
Mayor of Holly Springs, Miss.
Dear Sir:—
We take pleasure in forwarding to you forty dollars for the relief of your suffering people. The amount was collected in this county, as follows:
Moore's Store.....\$ 17.50
Powell's Store.....11.50
Lebanon Church.....10.10
Miscellaneous.....9.10
Total.....\$ 48.10

Hoping that it may reach you safely and that it may relieve the suffering of some of your citizens we are,
Very Respectfully Yours,
J. H. GRABILL,
M. Coffman,
Geo. Baily,
N. B. Schmitt,
W. T. Williams,
Committee.

ROOMS RELIEF COMM.
HOLLY SPRINGS, Miss, Oct. 7, '78
Gentlemen, Relief Comm.
Your favor \$40, at hand. Please express our gratitude to your citizens. We have no time to write.
May God in his mercy avert a like calamity. We are in a sad condition no abatement. Faithfully Yours
W. J. HOLLAND, CH. R. C.

Accompanying the letter was a printed list of the names of 123 persons who had died. On the back of the list was written with pencil "22 dead since this list."

WINCHESTER FAIR.—Unusual preparation has been made for the accommodation of the large crowd expected on the Fair grounds of the Agricultural Society, at Winchester, to day. Excursion trains will run from Frederick City, Martinsburg and on the Valley Branch. President Hayes will reach Winchester about 12 o'clock. He will be escorted to the Fair grounds by the Winchester Light Infantry, at 1 o'clock p. m. Addresses will be delivered by Major H. L. D. Lewis on behalf of the Agricultural Society; by Gov. Holliday on behalf of the people, to which responses will be made by the President and members of his cabinet.

The display of stock and agricultural machinery of all kinds will be much larger than usual. With good weather, everything bodes well for a successful fair.

The Anderson Guards, of Woodstock, under command of Capt. J. W. Magruder, will attend the fair to-day.

CORRECTION.—In the list of delinquents, published last week, I. Swartz & Brother were published as delinquents for \$12.22. This was an error made by one of our compositors. The list of our delinquents and delinquencies are made out together. An erroneous assessment of \$12.22 against I. Swartz & Bro. had been made. The compositor in setting up the list failed to see that it was marked off. In reading proof it was marked off. But the compositor again failed to correct it. It was noticed after a part of our edition had been partly run off, the press was stopped and the correction was made. A part of the mail, however, had then been made up. For this error the county treasurer was in no way responsible. It was an error of this office. We regret it from the fact that Messrs. Swartz & Bro. are men of excellent credit who always pay their taxes as well as all other obligations; People who were acquainted with them and their mode of doing business knew that there was some mistake.

DIPHTHERIA.—Diphtheria of a malignant type is prevailing in Powell's Ford and it is probable that it will make its appearance in other sections of the County.

A very serious mistake exists as to the nature and treatment of this affection, which ought to be corrected, for the benefit of those who may be afflicted with it hereafter. A great many persons outside of the medical profession, and even some physicians, are induced from the appearance and condition of the throat, to regard it as a local affection, and consequently their treatment is chiefly of a local character, whereas it is known to be a constitutional disease, and demands constitutional treatment, the condition of the throat being simply the local expression of a morbid condition of the system. It is to be regretted that several deaths have already occurred, and it is probable that others will fall victims to the disease, on account of the prevalence of this error. It would be just as rational to treat smallpox, simply by the application of remedies to the skin and expect it to be successful, as it is to treat diphtheria in this way. It is extremely rare that death results from the local disease, but almost invariably from the constitutional affection, of which the condition of the throat is only a manifestation as stated above.

Chlorate of Potash, Murinated Tincture of Iron, and Hydrochloric Acid are the remedies chiefly to be depended upon, and are to be given freely internally, and applied locally. The Hypophosphite of Soda as a local application in strong solution may be used, and generally has a good effect. Carbolic Acid or Permanganate of Potash must be resorted to when disinfectants are required, and the strength supported by beef tea, milk punch &c. Such remedies as the Nitrate of Silver, used locally, and the application of blisters to the outside of throat, have been found to be positively injurious, and should not be employed. Parent should understand the importance of resorting to proper treatment immediately upon the appearance of the first symptoms of the disease for the history of every epidemic has clearly demonstrated, that when a physician is summoned early, the vast majority of the patients recover, but when neglected, and heated for four or five days or a week, by parents, friends, or others who do not understand the nature of the disease, and who have had no experience in the treatment of it, the mortality is very much increased. ***

STRASBURG GRADED AND CLASSICAL SCHOOL.—Owing to the increase in the number of students, it has been found necessary to employ another instructor in this school. The services of Prof. J. M. Hottel, who is well known as a progressive and successful teacher, have been secured. By this arrangement, superior advantages are afforded to students of all grades, especially to those preparing for college, or for the profession of teaching. The "Ruffner Literary Society," which is connected with this institution, will be found beneficial to those desiring to improve themselves in Debating and Education.

For particulars address J. D. McInturff, Shen. Co. Va.

A NUISANCE.—A travelling tinner who carries his bed and other traps on a hand cart and is accompanied by a small dog, passed through this place yesterday morning. A gentleman walked near his cart and looked at it, without touching anything, for which offense the tramp drew a large knife and threatened to make an immediate attack. His manner displayed the vicious disposition for which tramps have become notorious. If he expects people to submit to annoyance and his malicious insults, he may soon find that this country is not a desirable location for his business.

We clip the following from the Washington Star: "The Rev. Owen Dorsey, of the Protestant Episcopal Church, who recently left Prince George county, Md., to go to attend the Indians, writes to friends in this city, giving encouraging accounts of the condition of things at the Omaha Agency. Mr. Dorsey is well known in philological circles for his valuable labors in the Ponca language, a dictionary of which, prepared by him, is to be published by the Smithsonian Institution. His philological researches among the Omahas cannot fail to have important results. Mr. Dorsey writes: We are not among savages but farmers, living in frame houses, raising better wheat than the whites.

The Omahas furnish all the supplies for the market of the town of Decatur. Their crops this year double those of last year, but owing to the inclement supply of mowers and reapers, thousands of bushels of wheat will be lost. They have broken this year not only a new record, but also a new record for the people, so that there is a prospect of a still larger crop next year. They have supplied the agents with good wheat. Doors and windows upon special nights except in rainy weather. Their drunkenness, fights and fighting are unknown. All are very friendly, and are pleased to find that I can talk with them. The Omahas are very busy harvesting, and I cannot see much of them. All their work is over. So I expect to start in a day or two for the Washington Agency, eight miles distant, to remain there ten days or two weeks. There is material enough here to keep me six months, and I find four or five to help me among those who speak English."

REMARKABLE RESULT.—It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c. who have no personal knowledge of Boecher's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. For Sale by Dr. D. D. CARTER & B. SCHMITT, Woodstock, Va.

"TRIAL BOTTLES 25 CENTS."—In order that all may test the great virtues of Dr. Swayne's Compound Syrup of Wild Cherry we have issued trial bottles at 25 cents. No family should be without this valuable medicine, as often-times a single 25 cent bottle will cure a recent cold or cough, and thus prevent much suffering and risk. It also cures asthma, bronchitis, liver complaint, and enriches and purifies the blood, giving tone and strength to the entire system.

ASTHMA AND DISTRESSING COUGH CURED. My mother was a great sufferer from asthma; could not sleep; her symptoms became very alarming; short breath, pains and oppression. Dr. Swayne's Compound Syrup of Wild Cherry gave her immediate relief, and in short time restored her to good health. H. MEYER, Grocer.

Price: Trial bottles, 25 cts.; a large size 81, or six for \$5. A single 25 cent bottle will often-times cure a recent cold or cough, and thus prevent much risk and suffering. Sold by Dr. D. D. CARTER, Woodstock.

Delinquent Capitalists and Personal Property, for the Year 1877.
